## Aims & Scope

*Journal of Drug Policy Analysis* focuses on practical, policy-analytic insights on the *problems and policies of drug abuse control*. Short peer-reviewed articles and essays analyze every aspect of the policy problems posed by abusable psychoactives, licit and illicit, anywhere in the world. Using data-driven and conceptual approaches, as well as the methods of the social and biological sciences, the humanities, medicine, public health, law, law enforcement, and public management, the journal emphasizes *informed policy analysis*: the stakes in a given policy choice and the terms of the tradeoffs among the values and interests in play.
