Discover • Adapt • Share

The Teaching Commons brings together open educational resources, including open textbooks, syllabi, course sites, videos, and K-12 curricula. Curated by librarians, the portal provides access to high-quality content from leading colleges and universities.

Teaching Commons

Educators can use the Teaching Commons to discover teaching materials, adapt content, or create and share their own. The Teaching Commons is built on the Digital Commons platform, which offers multimedia support, versioning, interactive options, and other tools to support the full spectrum of needs in this growing field.
